CAREER EXPERIENCE

PT. Jivaloka Prasana Sanassi, Jakarta · (Hybrid)

April 2025 – May 2026

3D Artist · (Contract)

- Developed game-ready 3D assets, including environments and props, ensuring strict alignment with established visual concepts and gameplay mechanics.
- Executed high-quality 3D modeling, UV mapping, and PBR texturing workflows (Albedo, Normal, Roughness, Metallic, Ambient Occlusion).
- Optimized 3D assets for target platforms by maintaining efficient polycounts, generating Level of Detail (LOD) models, and scaling texture resolutions.
- Integrated assets seamlessly into Unity and Unreal Engine, configuring precise scales, pivots, materials, and collision parameters.
- Maintained clean and optimized topology to ensure models were fully prepared for rigging and animation pipelines.
- Collaborated cross-functionally with game designers, programmers, and animators to streamline the overall game production pipeline.
- Conducted rigorous quality control (QC) to guarantee visual consistency, maximize rendering performance, and eliminate technical errors.
- Managed asset libraries efficiently by adhering to established studio pipelines, strict naming conventions, and version control systems.
- Assembled and constructed level layouts utilizing custom 3D assets within Unreal Engine 5 to meet specific scene and design requirements.
- Designed and populated immersive environments by configuring complex foliage and vegetation systems within Unreal Engine 5.

PT. Jivaloka Prasana Sanassi, Jakarta · (On-site)

Oct 2023 – Feb 2025

3D Artist · (Industry Project Trainee, Project-Based Learning (PBL))

- Created foundational 3D game assets, including simple props, small-scale environments, and supporting elements, in strict alignment with team directives.
- Performed fundamental 3D modeling and UV mapping, actively applying guidance and mentorship from senior artists.
- Configured and prepared 3D assets for seamless integration and immediate implementation within Unreal Engine 5.
- Executed asset revisions and refinements based on constructive feedback to consistently meet project quality standards.
- Adapted to the established game production pipeline, rapidly learning studio workflows and industry best practices.
- Collaborated actively with artists and developers to fulfill the game's visual requirements and support overall project milestones.
